PROFILE

Web and UI/UX developer with an MSc in Information Systems and a background in computer engineering. I create responsive interfaces using HTML, CSS and JavaScript, with an interest in clear navigation and practical problem solving. As a wheelchair user, I bring lived experience to accessibility-focused design.

CORE SKILLS

- Front-end: HTML5, CSS3, JavaScript, Bootstrap 5 and responsive design.
- Design: UI/UX design, Figma, accessibility and user-centered thinking.
- Programming and data: Java, C, C++, PHP, Node.js, MySQL and SQL Server.
- Workflow: Git and GitHub, testing, collaboration and Agile methods.

EDUCATION

MSc in Information Systems

2019 - 2023

European University Cyprus

BSc in Computer Engineering and Informatics

2012 - 2017

Cyprus University of Technology

ACADEMIC PROJECTS

- e-Pals - degree project website.
- CoTrax - music website.
- Fasouri Waterpark - staff website.

BEYOND WORK

BC1 boccia athlete representing Cyprus at international World Boccia Challenger events. Competition strengthens my focus, preparation and ability to adapt.
